Annamarie Bondi-Stoddard, Medical Negligence Attorney, Honored by United Cerebral Palsy Nassau

Lake Success, NY, April 26, 2013: Annamarie Bondi-Stoddard, Managing Partner at the leading medical malpractice law firm Pegalis and Erickson, LLC, was awarded the Corporate Leadership Recognition award at United Cerebral Palsy of Nassau's 11th Annual Dignitary Awards Luncheon today.

Among only a handful of women in law to have risen to her position, Bondi-Stoddard has been the trusted advisor to plaintiffs for nearly 30 years with her encyclopedic knowledge of medical topics. Voted by her peers for inclusion in the Best Lawyers in America®, New York Super Lawyers, and Top Female New York Super Lawyers, most of her successful cases concern medical negligence in pre-natal and birth injuries, surgeries, and late or misdiagnosed cancers. Bondi-Stoddard is part of the stellar team at Pegalis and Erickson, LLC, who has a 40-year reputation as leading regional medical malpractice advocates. In fact, in 2012, they won the highest verdict in New York State for medical malpractice.

Pegalis and Erickson has supported United Cerebral Palsy of Nassau for many years through their Festival of Trees program, Polar Bear Plunge, Taste & Toast the Town, Trivia Challenge, and Forget-Me-Not Ball.

Bondi-Stoddard holds that medical negligence litigation is critically necessary to improve the safety of day-to-day medical practices, while helping seriously injured individuals have a better quality of life by alleviating some of the families' financial burden. She has written and lectured extensively on medical malpractice for both the legal industry and lay audiences.

Pegalis and Erickson, LLC also supports many local nonprofits including the Babylon Breast Cancer Coalition; Angela's House, American Heart Association, The Theresa Foundation, Adelphi Breast Cancer Hotline, Stanley Lamm Institute, Long Island Women's Agenda, and the American Cancer Society.
