### Results for Clients

Pegalislaw Group recently obtained justice on behalf of our client - a Brooklyn, NY woman. We obtained a \$5 million dollar settlement for her. She is a victim of preventable medical error and remains permanently impaired and unable to care for herself. Two NY doctors failed to see, or act upon, improperly administered anesthesia. Early during her gynecological surgery, she suffered a bronchial spasm, but her team continued

performing surgery. **Being aware of and prepared to treat anesthesia complications is the standard of medical care, which they failed to follow.**
