

November 2019  
News You Can Use

**Results for Clients**

Pegalis Law Group obtained a \$3.75 million dollar settlement for the family of a woman who died in Nassau County, two days after the birth of twin sons. Her health care team was negligent in failing to properly treat her, both during her high-risk pregnancy and after giving birth. Doctors failed to resolve her high blood pressure and she developed breathing complications, resulting in a cardio-pulmonary arrest and death.

### Anesthesia: Improved, But Still Dangerous

The most common types of anesthesia responsible for injuries are surgical anesthesia, chronic and acute pain management, and obstetrical anesthesia. The outcome most prevalent in anesthesia negligence claims is death, followed by nerve injury.
