

## **February 2022 News Roundup** *News You Can Use*

### Pegalis Law Blog

#### **Five Ways You Can Observe American Heart Month**

Most people associate hearts with February because of Valentine's Day. However, it is also American Heart Month; a time to shine a spotlight on cardiovascular health. Heart disease remains one of the leading causes of death in the U.S., with over 800,000 Americans suffering from a heart attack per year. For tips on how to improve your heart health this year, click [here](#).

#### **Preventing Cancer With the HPV Vaccine**

The Centers for Disease Control and Prevention (CDC) estimates that the human papillomavirus (HPV) causes nearly 36,000 cases of cancer per year in the United States. However, the HPV vaccine can prevent up to 33,000 of these cancers, thus saving countless lives. For information on how the HPV vaccine works to prevent certain forms of cancer among men and women, click [here](#).

### Results For Our Clients

We have secured a \$7.5 million settlement for an infant girl who suffered severe, irreparable, and permanent damage to her brain and central nervous system following her birth. As a result of the hospital's negligence, the infant plaintiff will be unable to function normally or to care for any of her own needs, and will always be dependent on care givers. You can find the full details of the settlement [here](#).

### Client Testimonials

"I was very pleased with the settlement and want to express my gratitude to Mr. Fallarino for his efforts on my behalf. He was straightforward and professional as he guided me through the 'ins and outs' of the process."

"Mr. Baydar always kept me in the loop and provided a clear, easily understood explanation of what was taking place with regards to the finalization of the settlement numbers. He simplified a rather complex process for me."

"Other team members, such as staff who answers phones, direct calls, etc. were also part of a positive experience."

-Mr. K.
