Raising Blood Cancer Awareness

Did you know that someone in the United States is diagnosed with a blood cancer every three minutes? More than 1.3 million Americans are currently living with or in remission from a blood cancer. Blood cancers (also called hematologic cancers) are the third leading cause of cancer deaths in the U.S. In honor of September being Blood Cancer Awareness Month, Pegalis Law Group, LLC is here to provide blood cancer facts to create more awareness and proactive patients. Learn how the most common blood cancers are diagnosed and treated, as well as symptoms to look for and prognosis. Read the article [here](#).

Recognizing Symptoms of Childhood Cancers

Every three minutes, a family receives the devastating news that their child has been diagnosed with cancer. With nearly 16,000 American children diagnosed with cancer every year, cancer remains one of the leading causes of death among children in the United States. September is Childhood Cancer Awareness Month, a time when worldwide organizations spread awareness and raise funds for childhood cancer patients and their families. Pegalis Law Group, LLC sheds light on recognizing symptoms of childhood cancers to help create proactive parents and save more lives. Read the article [here](#).
