Celebrating World Cancer Day

February is National Cancer Prevention Month, with World Cancer Day on February 4. Despite modern medical advances, cancer remains one of the leading causes of death worldwide. It's estimated as many as 10 million people die from cancer each year. Did you know that more than 40% of these cancer-related deaths could be preventable if people modified their lifestyles to lower their risk factors? **In this article**, Pegalis Law Group, LLC examines ways you can get involved to spread awareness and create change.

How to Prevent Prenatal Infections

Whether it's your first or fourth, planning a child's birth is an exciting, joyful time in most parents' lives. While everyone wants a happy, healthy baby, certain prenatal infections can occur that could affect the health of the pregnant mother and baby during pregnancy or after birth. In honor of February being International Prenatal Infection Prevention Month, Pegalis Law Group, LLC looks at what causes prenatal infections and what can be done to prevent them to create proactive parents-to-be. Read more **here**.
